

10) write a shell script to find the Power of a number.

echo enter the value of x & N  
where  $x^N$

read no

read power

ans = 1

counter = 0

while [ \$power -ne \$counter ]  
do

ans = 'expr \$ans \\* \$no'

counter = 'expr \$counter + 1'

done

echo "the result is \$ans"
