17) write a c/c++ Program to outputs the commandss of its environment list.

```
#include <Stdio.h>
int main (int argc, char *argv[],
          char    *envp[])
{
    int i;
    for (i=0; envp[i] != Hull; i++)
        printf ("inv-s", envp[i]);
    getchar();
    return 0;
}
```
